Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another to do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscope change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of ornamentation, and the finishing and furnishing give evidence of the elegance and refinement of those who worked to build them. It is the interior appointments and artistic furnishing and finishing, more than the exterior appearance, that gives a surprising ...

For every visitor with a spare shober there is a sunny ready to come and accept your gift. He will sit back upright and know into the most, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round, you are reminded of Goldsmith's complaint where smiling spring its earliest visit paid and summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the polka-dot and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proficacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbuctoo, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parade and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with a constantly shifting scene.

Everything goes, from a 2-horse power up to a 200-horse power, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

Long People Are Golden Fat. Some persons are born with a normal tendency to become fat, others with a tendency to leanness. It is the same among the lower animals. The hog is a sort of machine for transforming the odds and ends of food into fat, but the farmer knows beforehand that a little pig with long legs and snout will work off the fat as fast as it can be made. So a long legged person seldom inclines to obesity.

the business of an international treaty for assuring the neutrality of the canal is that an international agreement would necessarily consist of a treaty between individual nations, and in time of war such treaties are not worth the paper on which they are written. Besides, what is to prevent a responsible nation that is a signatory to the agreement from inflicting injury on the waterway? If there were an understanding that there would still have to police the canal, and for this purpose some kind of organization would be essential. From the American viewpoint there is another fatal defect in the idea of a treaty of war, say, between the United States and Japan there would be nothing to prevent a Japanese fleet from passing through the canal and along the Atlantic coast. Thus the treaty we ourselves had built up for use for our own injury. It is the military necessity that has caused the American government to make this trip of

The last card party of the season was enjoyed by the guests at the Ridgewood Monday evening. Mrs. Arthur Tins of Athens-on-the-Hudson, N. Y., won the ladies' prize, while S. C. APPRECIATES THE WORK DONE BY BOARD OF TRADE.

ORMOND BEACH MAN HAS EXPERIENCE WITH INEFFICIENT SERVICE ON THE EAST COAST RAILROAD.

Ormond Beach, March 22, 1911.
Editor Daily News—I am in receipt of your paper weekly and read it with a great deal of pleasure and interest, especially the matters appertaining to the Florida East Coast railway. The work your board of trade is doing in the matter is certainly good. Let them keep it up. Let the band play on and the drum keep on banging.

I am not a citizen of Ormond, as you know I am at least five miles away from it, but since I have been here I am compelled to knuckle down to the Florida East Coast railway, as that is where I get my freight and receive it, (when the freight does reach here and when they feel disposed to send shipments from here.)

What has become of the passenger and freight line that was going to ply between Daytona and Jacksonville? Did an airship carry that away, same as all previous ones? We all feel the want of a deep waterway, or a little competition on the trucks.

Where can I sign that petition that Capt. G. M. Mullen is circulating, asking congress for an appropriation to establish and maintain a waterway along the East Coast of Florida? I want to sign it with a big "D." Most Respectfully,
A Newcomer, but anxious to get far away when things mend.
